

## THE VICE PRINCIPALS REPORT

Namaste and greetings to all. We here at DAV College, promote experiential learning which allows a child's social, emotional and physical development by keeping in mind the demand of present age, which allows a lot of exposure for the students. When we are able to understand the needs of children, especially emotional needs and act upon it, we can make them emotionally strong and firm.

Our students have reached the greater heights and have illumined the name of the College and I thank Almighty God for giving me the opportunity to serve at this highly prestigious institution, DAV College as the Vice Principal. It gives me great pleasure to send a message to the readers through the e- magazine, our annual publication "ARAYAN".

With the fast evolving and self-elevating society, Education has also had its share of evolution. The 21st century education is based on real life situations powered by technology. This digital age has brought the school, teachers and students together to work as a team to build a holistic atmosphere which is sensitive to each ones need, and, in the process, grows and is a reason itself for one's self growth.

The students come here with a great hope and vision and achieve their dreams. The aim of the college always has been to bring out the best in the students and make them better citizens. The college always tries to impart in the students the academic excellence, a sense of duty, discipline and above all moral and humanitarian values which are a need of the time. With the cooperation of the parents and guardians we can form our students and help them attain the excellence.

Adding to it, along with a great responsibility of parents and teachers I also would like to make the students aware of their responsibilities towards the parents, school and towards the society. In this present time as students grow rapidly to their age, they should act responsibly in their behavior and actions. When the students become aware of themselves and the surroundings, they act responsibly. And hence it is also our task to bring awareness in our children.

At DAV College, we are developing our students in the aspects of Science, Arts and technology so that they attain their career goals and pursue their interest.

We believe in providing a supportive and a well-equipped learning environment for our students in which each child is unique, is equal and every achievement is celebrated with full vigor.

I foresee a better future of the children in this institution and with the cooperation of the parents along with the parents we can take our students to a great new height. I wish all the best to our staff and children. Let us make the difference in the world. glory.

Finally, I wish to thank the Management, Principal, Assistant Principal and hardworking, most dedicated team of teachers, students, college management, Ministry of Education, parents and well-wishers for their tremendous corporation, contribution and continuous support.

Best of luck to those students sitting for their external examination and best wishes to the departing Year 13s. May God bless you all and Merry Christmas and Prosperous new year to all.

I sincerely pray to Almighty God to shower his choices blessing on us all the time.

**Mrs. Jotika Chand**  
**Vice Principal**
